

MUSIC! is an interactive traveling exhibition. The initiative of four museums: Museon (NL), Limburgs Museum (NL), LVR-LandesMuseum (DE) en Braunschweigisches Landesmuseum (DE). This exhibition arose on the occasion of the 250th year of birth of Ludwig van Beethoven. The exhibition can be visited for a certain period at each of the above partners. The first location where its installed is in the LVR-LandesMuseum in Bonn. The result of the cooperation with all the partners is an exhibition that immerses visitors in the common music experience: around the world. Thirty interactive stations invite the visitors to listen, make and feel music. The skills for playing an instrument are not necessary. Everyone is welcome to visit the exhibition. Curiosity to new sounds and experience is just what you need.

Authority/ Locations

- Museon, Den Haag
- Limburgs Museum, Venlo
- LVR-LandesMuseum, Bonn
- Braunschweigisches Landesmuseum, Braunschweig

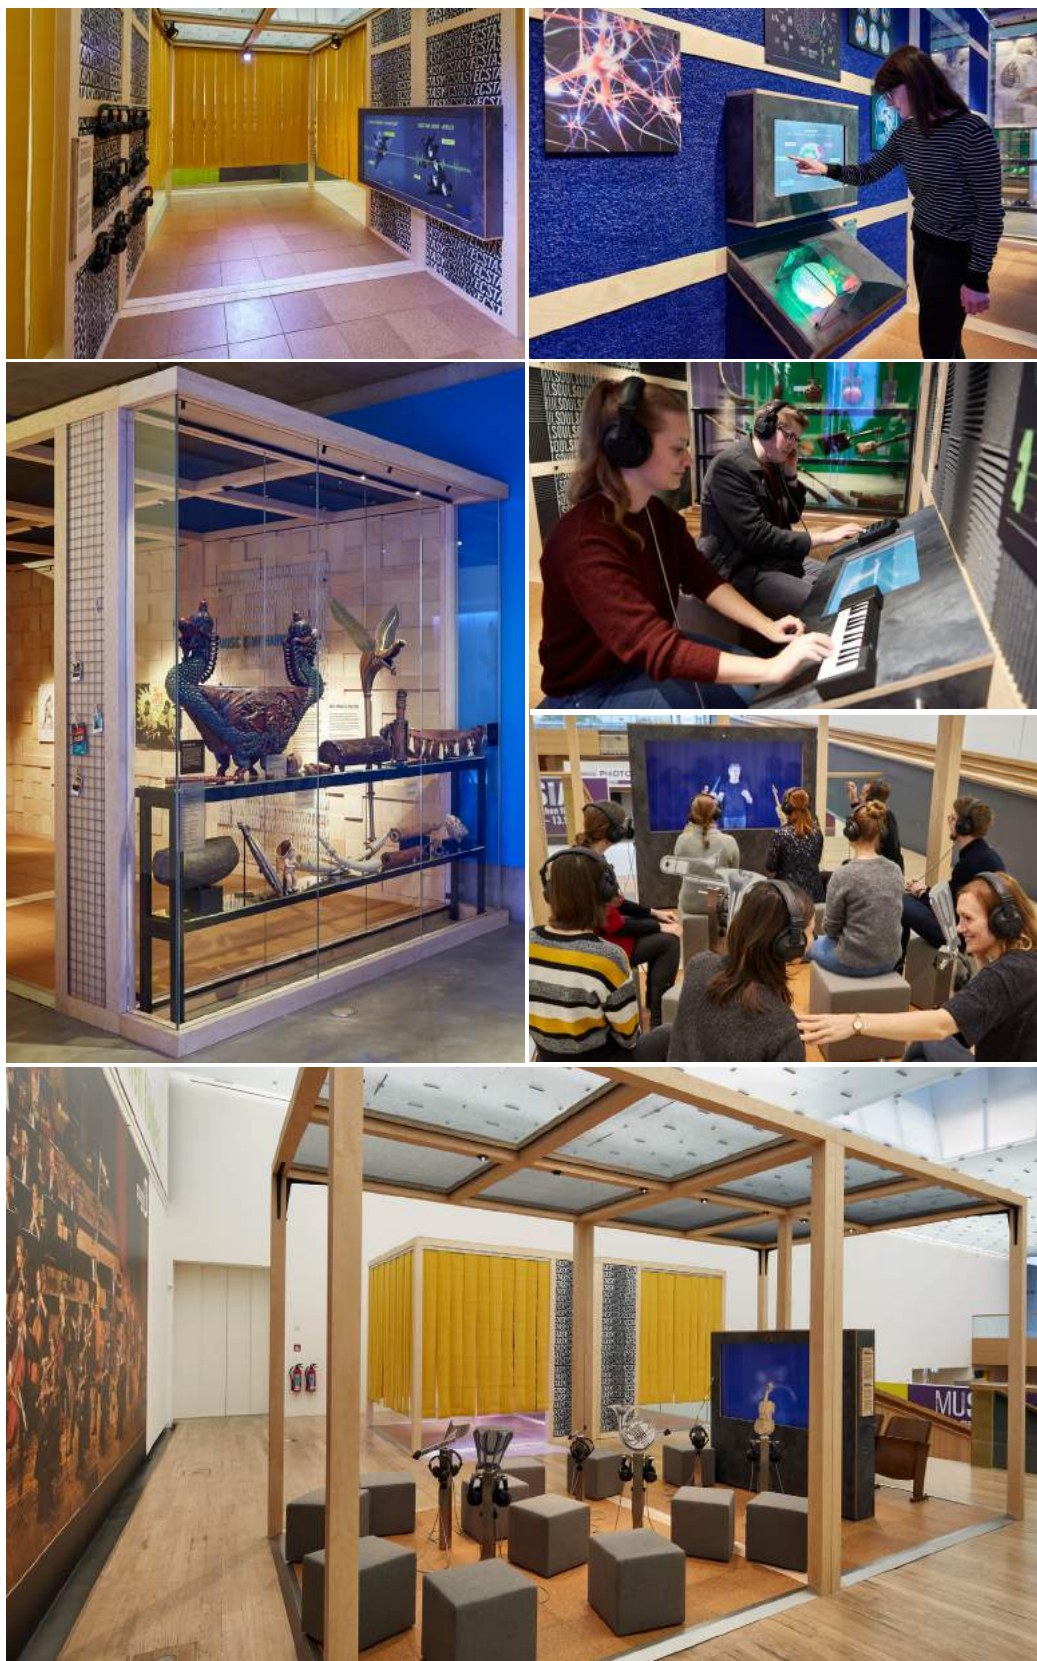

Surface area

700 m²

In collaboration with the four museums, Bruns is the party that performed the exhibition in its entirety according to the design of NorthernLight. This means making the 30 stations and all exhibits in which the exhibition is provided. Together with Yipp, partner of digital communications, Bruns has taken care of the content of MUSIC! The central goal for the development of this exhibition was that all elements are easy to assemble and dismantle at the four locations.

The nice thing about this project is that it is already the third traveling exhibition for this consortium. Also at MUSIC!, Bruns is partly the owner of the exhibition and will take care of all dismantling and construction as well as maintenance.
